

I am very disturbed to hear that the NAB is getting involved in trying to shutdown XM radio. The main reason I subscribed to XM was to have the freedom to listen to a variety of music and talk shows without being interrupted with commercials constantly . I use the traffic channel when I leave for work in the morning to decide if I need to take a alternate route so I will not be late. I pay for this service and no group should have the say to take that away from me or any of the other XM listeners out there. It is up to the individual to listen or watch certain programs. It should not be up to the NAB or any other organization of what I should listen to.
